Item 4 – Advisory Business

St. Croix Advisors, LLC (SCA) offers a broad range of services for individuals and businesses such as but not limited to: Financial Planning and Consulting, Company Sponsored Retirement Plans, Investment Management and Selection of Investment Advisory Services and Providers. St. Croix Advisors, LLC was founded in 2010 and is solely owned by Brett Anderson. St. Croix Advisors, LLC has strategic relations with outside providers to help meet clients' goals and objectives. SCA is committed to minimizing potential conflicts of interest and providing transparent pricing.

When we provide investment advice to clients regarding a retirement plan account or individual retirement account, we are fiduciaries with the meaning of Title I of the Employee Retirement Income Security Act and/or the Internal Revenue Code, as applicable, which are laws governing retirement accounts. The way we make money creates some conflicts with client interests, so we operate under a special rule that requires us to act in our clients' best interest and not put our interest ahead of our clients' interests.

Under this special rule's provision, we must:

- Meet a professional standard of care when making investment recommendations (give prudent advice);
- Never put our financial interests ahead of yours when making recommendations (give loyal advice);
- Avoid misleading statements about conflicts of interest, fees, and investments;
- Follow policies and procedures designed to ensure that we give advice that is in our clients' best interest;
- Charge no more than is reasonable for our services; and
- Give clients basic information about conflicts of interest.

Our conversations include but are not limited to your overall financial goals and objectives for your family, business, retirement, education funding, estate and income tax reduction, wealth transfer, risk management, investment portfolio design, cash flow and budgeting, and a host of other relevant topics to your personal or business situation. After our initial consultation and meeting, each client enters into a written agreement setting forth the terms and conditions of the engagement and describing the scope of services to be provided. Half the fee for a financial plan is due at the inception of the planning engagement and half is due upon delivery of the financial plan by SCA based upon the information provided by our client (and any other advisors they work with) on their financial goals and objectives. For each client, St. Croix Advisors, LLC reviews investment management strategy via an asset allocation portfolio based on client expectations for risk, time horizon, and returns. St. Croix Advisors, LLC takes a long-term investment perspective when making recommendations. While financial planning is based on future events and expectations, each client is strongly urged to have a plan reviewed annually in order to adapt to new and

ever-changing circumstances. Fees for these services vary and are based upon the expected work to be completed and are highly customized to meet our client's needs. All fees are disclosed and agreed upon in advance of any engagement.

Upon retaining St. Croix Advisors, LLC for financial planning and consulting services, it is completely at your discretion to accept or reject any of our recommendations.

Clients may engage SCA to manage all or a portion of their investment portfolios on a discretionary basis. SCA also may render non-discretionary investment management services to clients relative to variable life/annuity products that they may own, their individual employer-sponsored retirement plans, 529 plans or other financial products. In so doing, SCA either directs or recommends the allocation of client assets among the various investment options that are available.

We may possibly recommend that clients authorize the active discretionary management of their investments by one or more Independent Investment Managers or Registered Investment Advisory Firms based on their stated financial goals and objectives as disclosed in our discussions. The terms and conditions under which clients engage an Independent Investment Manager or additional Registered Investment Advisory Firm will be outlined in a separate written agreement between themselves and the designated option selected. St. Croix Advisors, LLC would continue to provide advisory services by ongoing monitoring and review of the account performance, asset allocation, and investment objectives.

St. Croix Advisors, LLC utilizes outside Independent Investment Managers and Registered Investment Advisory Firms for the majority of its investment client's. St. Croix Advisors, LLC has \$79,746,919.39 million under management.

St. Croix Advisors, LLC, in addition, will provide you with our own ADV Part 2A if you retain our services. If pertinent, you will also receive form ADV Part 2A from the Independent Investment Manager(s) or Registered Investment Advisory Firm. Independent providers may have more restrictive requirements and billing practices than St. Croix Advisors, LLC, which may require St. Croix Advisors, LLC to accommodate those items.

Retirement Plan Consulting: SCA also provides investment advisory services to company sponsored retirement plans. Advisory services provided are in the nature of research, analysis, and selection of investment alternatives. SCA may manage a plan's assets on a discretionary or nondiscretionary basis.

On a non-discretionary basis, SCA contracts with the Plan Sponsor to evaluate and recommend no-load mutual funds for each investment objective and for use in asset allocation strategies. SCA provides Plan Sponsors with periodic research reports on funds held by the Plan, and on additional funds SCA believes should be under consideration. Since

SCA investment advisory services are non-discretionary, the Plan Sponsor makes the final decision as to which investments are offered to participants in the Plan. Each participant then makes the final decision as to which of those investments, and how much of each, is held in his/her account.

In a discretion arrangement with a Plan Sponsor, SCA is an ERISA fiduciary to the Plan. As a fiduciary, SCA supervises and directs the selection, removal and replacement of the investment options offered under the Plan. SCA is charged with providing investments that are consistent with the authorized investment objectives stated in the Plan Sponsor's formal, written Investment Policy Statement (IPS). Services may include development of risk-based and/or target date asset allocation strategies and quarterly monitoring of the Plan investments. The services may be tailored to the Plan Sponsor's desire for its level of involvement in the selection of investment options, either selecting from the entire universe of available funds in categories such as: ETF's, Index Funds, Low Cost Funds, Sector Funds, Actively Managed Funds, etc. SCA does not place any trades for participant accounts and does not have authority to do so for Plan Sponsors, however, SCA may have the discretion to select the investments available to participants.

Under both types of Retirement Plan investment advice, non-discretionary and discretionary, SCA meets with Plan Sponsors at least annually to review the quality of the service provided by SCA and to review investment objectives of the Plan.

SCA's services may also include participant education and enrollment. SCA typically does not make specific investment recommendations to plan participants. However, participants may contract directly with SCA for individual investment advisory services.

St. Croix Advisors, LLC, in addition, will provide you with our own ADV Part 2A if you retain our services. If pertinent, you will also receive form ADV Part 2A from the Independent Investment Manager(s) or Registered Investment Advisory Firm. Independent providers may have more restrictive requirements and billing practices than St. Croix Advisors, LLC, which may require St. Croix Advisors, LLC to accommodate those items

Fees on assets deposited or withdrawn during the quarter will not be prorated based on the number of days remaining in the quarter. St. Croix Advisors, LLC deducts Investment Management & Advisory Services Fees from clients' assets unless a client specifically requests the fees to be direct billed or a service provider is unable to offer that feature. These fees are billed on a quarterly basis.

Brokerage commissions (trading costs) and custodial fees of the broker/dealer (custodian of client assets) are in addition to St. Croix Advisors management fees (See Item 12 – Brokerage Practices, below).

The majority of the mutual funds utilized by St. Croix Advisors are purchased on a “non-transaction-fee” basis. A complete explanation of the expenses charged by a mutual fund is contained in the fund's prospectus.

Investment Management & Advisory Service Fees are required to be paid quarterly in advance. If Investment Management & Advisory Service Fees services are terminated, unearned fees paid in advance will be pro-ratably refunded upon the client's request. The refund calculation is based on the number of days remaining in the quarter as a percentage of the number of total days in the quarter multiplied by the number of times the fee is charged. Clients may terminate the Advisory relationship during the first 5 days at no cost.

If we refer you to an Independent Investment Manager or an outside Registered Investment Advisory firm and our fee (Wealth & Investment Management Fee) is included in the advisory fee charged by such Independent Manager or Firm and you choose to engage that independent firm, we will be compensated for our services by a fee paid directly by the Independent Manager or Registered Investment Advisory Firm to St. Croix Advisors, LLC. Generally, St. Croix Advisors, LLC receives 50% of the fees charged by those providers. Any such fees will be paid exclusively from the Independent Managers or Registered Investment Advisory Firm, and will not result in any additional charges or fees to you within this scope of services.

Item 6 Performance-Based Fees and Side-By-Side Management

We do not charge any performance-based fees (fees based on a share of capital gains on or capital appreciation of the assets of a client).

Item 7 – Types of Clients

We provide our services to individuals, families, trusts, estates, charitable organizations, corporations, and domestic business entities. We have no account minimum, but St. Croix Advisors, LLC is best suited for those with \$1 million or more in investable assets.

Item 8 – Methods of Analysis, Investment Strategy and Risk Loss

St. Croix Advisors, LLC typically manages each client's portfolio with one of five investment strategies; Conservative, Moderate, Balanced, Growth, or Aggressive, depending on the client's objectives and tolerance for risk. The Aggressive strategy will typically have the most stock market exposure, while the Conservative strategy will have the least. Overall, St. Croix Advisors, LLC's investment strategy is based on a strategic asset allocation discipline; however, it may make tactical adjustments as market conditions dictate. St. Croix Advisors, LLC's strategy also includes diversifying portfolios across several investment styles and industry sectors utilizing primarily no-load mutual funds, however, portfolios may also include individual securities and exchange-traded funds.

Portfolios are built with the intent of utilizing multiple fund managers, each having a distinct and unique process. St. Croix Advisors, LLC will use outside research in selecting managers. This investigation contains extensive quantitative and qualitative analysis of potential fund managers, including a statistical analysis of historical risk/return data, style analysis data, stock selection philosophies, buy and sell disciplines, and manager longevity.

It should be noted that all investments are subject to inherent risks, and investments in the Portfolios' managed by St. Croix Advisors, LLC are no exception. **Accordingly, you may lose money when investing with St. Croix Advisors, LLC.** Portfolios utilizing each of St. Croix Advisors, LLC strategies will **fluctuate**, reflecting day-to-day changes in market conditions, interest rates and numerous other factors. It is possible, even in St. Croix Advisors, LLC's Conservative strategy, **that a client will lose money.** Investing in securities involves risk of loss that client should be prepared to bear. Specific risks include:

Market Risk. The market values of securities owned may decline, at times sharply and unpredictably. Market values of equity securities are affected by a number of different factors, including the historical and prospective earnings of the issuer, the value of its assets, management decisions, and decreased demand of an issuer's products or services, increased

production costs, general economic conditions, interest rates, currency exchange rates, investor perceptions and market liquidity.

Economic Risk. Changes in economic conditions, for example, interest rates, inflation rates, political and diplomatic events and trends, tax laws and innumerable other factors, can substantially and adversely affect investments.

Asset Allocation Risk. Asset allocation may have a more significant effect on account value when one of the heavily weighted asset classes is performing more poorly than the others. Diversification and strategic asset allocation do not assure profit or protect against loss in declining markets.

Concentrated Portfolio Risk. To the extent a portfolio has a large portion in a single security or several securities it bears more risk because it is not diversified. Changes in the value of significantly over-weighted security positions may have a much more substantial directional effect, either negative or positive, on the portfolio's performance.

Emerging Foreign Market Risk. Investment in the securities of foreign issuers may experience more rapid and extreme changes in value than funds with investments solely in securities of U.S. companies. The securities markets of many foreign countries are relatively small, with limited number of companies representing a small number of industries. Additionally, foreign securities issuers may not be subject to the same degree of regulation as U.S. issuers. Reporting, accounting, and auditing standards of foreign countries differ, in some cases significantly, from U.S. standards. Also, nationalization, expropriation or confiscatory taxation, currency blockage, political change or diplomatic developments could adversely affect investments in a foreign country.

Fixed Income Risk. Including: interest rate risk, which is the chance that bond prices overall will decline because of rising interest rates; income risk, which is the chance that a strategy's income will decline because of falling interest rates; credit risk, which is the chance that a bond issuer will fail to pay interest and principal in a timely manner, or that negative perceptions of the issuer's ability to make such payments will cause the price of the bond to decline; and call risk, which is the chance that during periods of falling interest rates, issuers of callable bonds may call (repay) securities with higher coupons or interest rates before their maturity dates. The investment would then lose any price appreciation above the bond's call price and would be forced to reinvest the unanticipated proceeds at lower interest rates, resulting in a decline in the investment's income.

Clients should review the applicable Registered Investment Advisor's Form ADV Part II for when St. Croix Advisors, LLC utilizes outside Investment Management and Selection of Investment Advisory Services.

Investing in securities involves risk of loss that clients should be prepared to bear.
